App

All Books: Click to open the Group pop-up box. The Group includes system groups (All Books, Locally Imported books, Ungrouped books) and user-created groups. Click on the group name to view the books in the corresponding group on
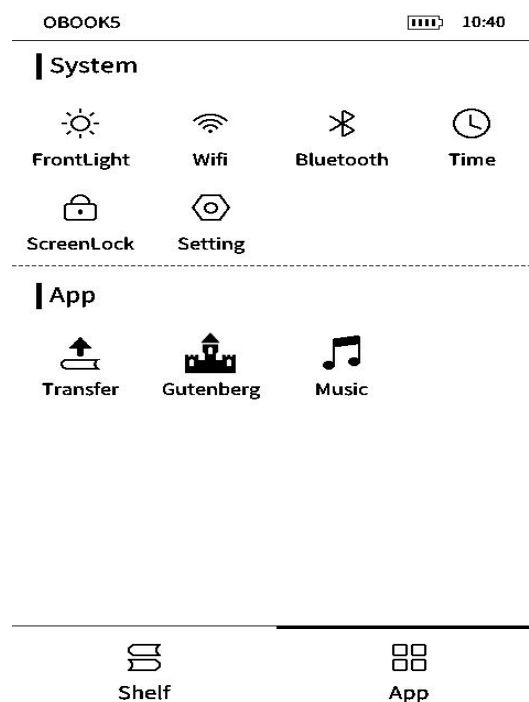

the bookshelf.

File Management: Click the 【File Management】icon to enter the file manager. You can access or delete local files.

Search: Type in book title/author to search. The search scope includes the bookshelf and the online bookstore.

More: Click to pop up a dialog box, where you can perform bookshelf management, import books, and switch between list/cover modes.

Applications

Common System Settings

Brightness Adjustment : You can slide the brightness bar to quickly adjust the brightness to the desired level, or click the +/ - buttons for fine-tuning.

Wi-Fi Settings : The reader supports wireless networks. You can click "Settings - System Settings - Network Settings" to enter the Wi-Fi settings interface, where you can search for networks, add networks, and turn on Wi-Fi. Select "Turn on Wi-Fi", and Wi-Fi will be enabled and start searching for Wi-Fi hotspots. Click on the Wi-Fi hotspot you want to connect to. Once connected successfully, the hotspot will be moved to the top and a "v" will be displayed. Click "Search for networks" to

re-search for Wi-Fi signals, and click "Add network" to manually enter the SSID, password, and encryption type to join the specified network.

More System Settings

● **Volume Adjustment** ◁)) − ▮▮▮▮▮▮◻◻◻◻◻◻◻◻◻◻ + : You can slide the volume bar to quickly adjust to the desired volume, or click the +/− buttons for fine-tuning.

● **Airplane Mode** Flight Mode : This device supports airplane mode. Once airplane mode is turned on, you cannot open the network settings.

● **Time Settings**: By default, the time is synchronized online. After turning off the synchronized network time, you can also change the time manually.

● **Wallpaper**: Click to change the standby and shutdown pictures. This device supports custom wallpapers. You can see [Custom Wallpaper Method] in the upper right corner of this interface.

● **Factory Settings**: If the reader encounters abnormalities, you can also restore the reader's system to its original factory state by restoring factory settings.

[Note] The system files of the reader are stored in the flash memory of the reader, and formatting has no impact on the system. Please ensure that the battery level of the reader is no less than 30% before the operation. This operation will clear all the settings of your reader. After restoring factory settings, the reader will restart automatically, and you need to set it up again.

● Shutdown: Under this setting, you can perform a shutdown operation to save energy.

● About This Product: You can view information such as the system version, kernel

version, product serial number (S/N), and MAC address of this reader. You can also check for system version updates by checking for updates.

Application Software

Book Transfer: The reader supports USB book transfer.

Connect the computer and the reader with a data cable. Click on the book transfer program, and then select "USB Book Transfer" in the pop-up interface. Click [Finish] to exit the book transfer.

Export Notes: Click to enter the note list, where you can view and export notes.

Project Gutenberg: It is a free and public welfare book application. Most of the books are free classic books.

Precautions

This product is a precision electronic product, and special attention should be paid during use:

Do not disassemble this product without permission. If you have any questions, please contact the dealer or directly contact Guowen (obook@obook.com.cn).

Keep this product away from electromagnetic environment.

Keep this product away from harsh environments such as high temperatures, low temperatures, dryness, humidity, smoke, and dust.

Do not place heavy objects on this product. Do not press the screen or buttons of this product with excessive force. Do not vibrate or impact this product violently.

Ensure that this product is placed safely to avoid accidental damage caused by children's touch.

Clean the product surface with a soft cloth, instead of water or other chemical reagents.

Do not disconnect the product when it is being formatted or during the process of uploading or downloading, otherwise, it may cause program errors.

When this product is used as a removable storage device, please store and export files according to the correct file management operation methods. Our company will not be responsible for any file loss caused by incorrect operation methods.

Our company will not be responsible for any loss of data in the memory due to product damage, repair, or other reasons.

Due to different calculation methods, the FAT partition table of the product system firmware Flash memory will occupy a certain amount of space. There will be some differences between the marked memory capacity of this product and the memory capacity shown after connecting to a PC. It depends on the firmware version and Flash type adopted by the product, which is normal.

As an electronic product, it is easy for the files and firmware programs of this product to be damaged by viruses. Please strengthen virus prevention. If the product has been infected by a virus and becomes unusable, you can format the disk on a virus-free computer or directly on this product. Then update the system through an over-the-air upgrade.

The product body will heat up if it is connected to a computer via USB for too long. It is recommended not to keep it connected to the computer for a long time. Please unplug it from the USB port when not in use.

Please operate the product according to the user manual and back up important data in a timey manner.

Due to software updates, there may be differences between the actual use of this product and the content of the instruction manual. Please refer to the purchased product. This operation guide is for reference only.

Our company reserves the right to improve products, including product specifications, designs, programs, etc. Any changes will be made without further notice!
