

# **OBOOK 6**

# **Quick Guide**

- Thank you for choosing Obook6 Reader. This guide can help you understand the product features and operations.
- This product is born for reading, and WeChat Reading is the main source of books. You can read books by using WeChat Reading in this product. At the same time, this product also supports the installation of other Android apps, but due to the characteristics of the ink screen, only some apps are supported, which is subject to actual installation.
- This instruction manual is a quick guide, the software and hardware of OBOOK Reader will be continuously upgraded, different products and models will have slight differences, detailed instruction manual, you can <http://www.obook.com.cn/> through the OBOOK official website, or send an email to [obook@obook.com.cn](mailto:obook@obook.com.cn)

Thank you for your support!

Power button	<ol style="list-style-type: none"><li>1. Press the power button to start the device</li><li>2. Press the power button and hold for 3 seconds, and select the "Power Off" and "Restart" functions in the menu to achieve the power off/restart function</li><li>3. Press the power button and then release it immediately, and the device goes to sleep</li><li>4. Press the power button and then release it immediately to wake up the device</li><li>5. Press and hold for 10 seconds to forcibly cut off the power and shut down</li></ol>
Type-C Charging port	<ol style="list-style-type: none"><li>1. Connect the adapter/PC to charge the device or transfer data via a data cable</li><li>2. Support connecting Type-C digital headphones</li><li>3. OTG function is supported</li></ol>

1. Tips: The red light is on means that it is charging, and the green light is on when it is fully charged;
2. If the reader's charging indicator does not light up while charging, check that the USB cable is properly plugged into the Reader and charger.
3. If your Reader still doesn't charge, try again with a different USB port or power outlet.
4. If your Reader is plugged into a low-voltage USB port, such as the USB port on some older computers, it may not charge because the charging power is too low.
5. If your Reader won't turn on, or doesn't respond when using it, you can press and hold the power button to force it to power off, and then turn it back on, if it still can't be used, please contact our customer service.

## Precautions

- This product is a precision electronic product, special attention needs to be paid to the following during use:
- Please do not disassemble this product without authorization, if you have any questions, please contact <http://www.obook.com.cn/> through the official website of Bahasa Malaysia or send an email to [obook@obook.com.cn](mailto:obook@obook.com.cn)).
- Keep this product away from electromagnetic environments.
- Please keep this product away from harsh environments such as high temperature, low temperature, dry, humid, and smoke.
- Please do not place heavy objects on this product, do not press the screen or buttons of this product with excessive force, and do not violently shake or impact this product.
- Please ensure that this product is placed safely to avoid accidental damage due to children's touch.
- Clean the surface of the product with a soft cloth, not water or other chemicals.
- Please do not disconnect this product when it is formatted or is being uploaded and downloaded, otherwise it may cause an error in the program.
- When using this product as removable storage, please store and export files according to the correct file management operation method, and the Company shall not be responsible for the loss of files due to the wrong operation method.
- The Company is not responsible for the loss of erased memory data due to product damage, repair, or other reasons.
- Due to the different calculation methods, the FAT partition table of the Flash memory of the system firmware of the product will occupy a certain space, and the memory capacity identified by this product will be different from the memory capacity displayed after the PC is connected, which depends on the firmware version and Flash category adopted by the product, which is normal.
- As an electronic product, it is easy to damage the files and firmware programs of this product due to viruses, so please strengthen virus prevention. If the product is unusable due to a virus infection, you can format the disk on a computer that is sure to be virus-free or the product. The system is then updated with an over-the-air upgrade.
- If the USB is connected to the computer for too long, the body will heat up, so it is recommended not to connect with the computer for a long time, and please unplug it from the USB port when not in use.
- Please follow the user manual and back up important data in a timely manner.
- This product may be different from the content of the manual due to the actual use of the software update, please refer to the purchased product, this operation guide is for reference only.
- The company reserves the right to improve products, product specifications, designs, procedures, etc.; It is subject to change without notice!
